WEDNESDAY EVENING, JULY 19, 1882.

MR. LEWIS MCKENZIE, an abolitionist before the war, a Union man during the war, and a republican ever since the war. was to-day removed by a republican Presi- priation bill directing the Secretary of the dent from the postmastership at this city, which he filled to the entire satisfaction of the whole community, for no other reason next session. than to give his place to a follower of Gen. Mahone. It is understood that the President did not wish to make the change, but he had made a bargain with the General have a quorum present they will oust Mr. who held bim to its terms. When the commissary cattle were starving here during the war Mr. McKenzie threw open his grain warehouses and fed them without cost to the Government. President Arthur Alabama: but as his contestant is dead, requites this favor to the country by removing him in his old age from an office that afforded him his only means only democrat who voted with the republiof support. What do the white republicans of Virginia say to this? and what do they think of the administration wing of the republican party as run by General Mahone in Virginia?

Infantry for their pecuniary contracts, and who denounce preachers for teaching that what is morally wrong cannot be politically right.

AFTER ALL the disgraceful scandal connected with the repudiating Riddleberger bond business, General Mahone's home organ, now that those bonds are printed, advises the State's creditors to have nothing to do with them, but rather to exchange their old bonds, to the payment of which the honor and faith of the State is pledged, for a certificate of indebtedness issued by a Mahone Auditor. Was the government of a State at West Point. ever before put into such hands as those into which that of Virginia has fallen?

A TELEGRAPHIC dispatch to the Richmond Whig from Marion, says Capt. Wise asked a man there if he had made certain statements respecting him, and being answered affirmatively, the Captain "punished him on the spot." So it seems that the Captain has thus early in the campaign resorted to the knock-down argument, which is universally come off next fall. conceded to be the weakest and the last that can be employed.

Does the prejudiced verdict those jurors rendered entitle them to extra pay? or are jurors in notorious entitled to higher pay than those in obscure cases?

IF SPEAKER KEIFER and Messrs. Butterworth and Robeson can make such alterations as please them in the Congressional Record, other members of the House have the same privilege, and so the record of the proceedings of Congress is no record at all, but the meeting became so disorderly in disand as its publication necessitates enormous cussing the resolutions that it was dismissed expense why not suspend it altogether?

WITH MAHONE as the leader of the republicans in Virginia the republicans through-. out the country will have less to say than formerly against repudiation and in favor of the binding obligation of contracts.

FROM WASHINGTON

[Special Correspondence of the Alexandria Gazette.] WASHINGTON, D. C., July 19, 1882.-The British Government has officially thanked by American marines to English troops in excluding the Egyptian army from Alexandria. If the dead could hear, what a rattling of bones there would be at Mount Vernon!

The river and harbor bill is still in the hands of a conference committee with a favorable prospect of an agreement. But it is reported that the President has pretty well determined to veto it when passed. Parties interested in the Maryland ferry at Alexandria were here to-day to see if the bill could not be amended so as to include a small appropriation for dredging a channel through the flats opposite that city, but they found that it was beyond the amendment stage.

Tuesday night at Alexandria passed quietly, the only incident occuring being an attempt to set fire to the Saint the United States for the assistance rendered Mark's Building, which is occupied by the Americans as their headquarters. The fires are nearly all extinguished, and the police arrangements are thoroughly effective. Five hundred marines will occupy seven different centres, which is expected to place the whole town under efficient surveillance. Native police is being organized to act under the military police, and a detective force has been instituted to search for suspicious persons. The Austrian consulate has been reestablished. Louisa, C. H., July 18 .- The readjusters (republicans) held a meeting court-day. It is a sickening sight to witness white men acting with the worst negroes in the county, and what for? For the sake of a few insignificant little offices! John Wise, son of the illustrious old Henry A. Wise: us see where he was a few years ago. When Wells was at Louisaduring the Gilbert C. Walker campaign no one seemed disposed to get up and defend our people; John Wise jumped up into the court house window, and denounced Wells and the infamous radical republican party. He was a mere youth then. We applauded him then. But now where is he? Gone over into the ranks of the party he then so nobly denounced: Where is John Paul, and Riddleberger, and Bolling Willcox, and many others? Where are they? Gone over to the republicans! Surely some Virginians are unworthy to have been born in such a noble old State as Virginia once was. It is no readjust-ment now. That's settled. There are two ban-ners unfurled. Under one are such noble men as John Daniel, Geo. Wise, Kemper, and Holliday men who love Virginia. Under the other are Jno. Pauls, and Gen. Mahones, (men who vote in Congress to turn out lawfully elected white men and scat negro republicans from South Carolina), carpet-baggers and all sorts of the worst men of both colors. Under which banner will you march? To save a crimson blush of shame you cannot but choose the former.

rested in Washington on the charge of abstracting valuable manuscript records from the Attorney General's office. In the police court yesterday Williamson was committed to jail in default of bonds for a hearing to-day. The accused has been ters and other manuscripts from the Department of Justice, as he has been seen exhibiting and selling them. When arrested he had a number of letters in his possession signed by prominent statesmen, and extending over the period from 1817 to 1845. Among these and others recovered by the police was William Wirt's letter accepting the office of Attorney General, and autograph letters bearing upon different official subject June 30, Williamson sold sixty-five letters to Mr.A E. L. Keese, who is quite an antiquarian and collector of curiosities, and at the same time sold him several rare books, one of which had the name and seal of D. D. Ingles. Williamson claims that the letters were presented to him by Attorney General Williams, and have been in his possession nine years. He was during Attorney General Williams administration, that official's private Secretary, and was a man whose wide and information and elegant manners gave him the entree everywhere. He was at one time the room-mate of Sam Ward, Vestibuli Rex. For some years he has been on the downward path, and is now a terrible and repulsive wreck. His features are bloated and deformed, his garments nothing but dirty rags, and his once elegant gait has changed into the shambling shuffle that betokens one who has reached the dregs. His nature in his palmiest days, however, seemed to be entirely sensual. It is supposed that Williamson, during his connection with the Department of Justice abstracted the letters and records, not for pecunilessly sick with kidney diseases, it restored that, becoming pressed for money, he has been ary advantage, but for his private collection, and compelled at last to sell them.

A dispatch from Constantinople to the Times says: According to a communication received here, Arabi Pacha maintains that the bombardment of Alexandria was a hostile act to Egypt and contrary to the rights of the Sultan; and that he was fully justified by law, and by the decision of the council of ministers in replying to the British fire. The Khedive, he argues, in accepting English soldiers as a body guard has shown that he considered the Egyptian army as enemies. By international and sacred law, he says, he has the right and the duty to defend the country, and the Khedive's order to suspend military preparations is analogous to the order of the Bey of Tunis at the time of the French invasion.

ALEXANDRIA CATTLE MARKET, July 19, 1882. Prices to-day ranged as follows: Cattle-Very best.....

Hogs ... Cows and Calves 25a\$50.

The market this week was well supplied with all kinds of stock cattle, which while not so good in quality, as usual were in fair demand and sold quite readily at quotations. Calves.—The supply of calves is about equal to the demand; all the offerings being sold out at prices a fraction lower than last week. Sheep dull. Lambs in good sup-ply and moderate demand with prices fully be lower than last week; most all the offerings were closed early. No arrivals of Hogs. Cows and calves in demand for prime ones; common dull and hard to sell.

NEW YORK CATTLE MARKET. July 19.—Beeves. Nothing doing in the Cattle Yards. Dressed beef sides had a dull sale at 9a13c per lb for common to prime native sides, and 7½a8½c for poor to fair Texas and Colorado sides.

fair clearance at 3 ba4c per lb for grassers; 4 ba 5c for buttermilk calves, and 5 ba8 bc for veals. Sheep and Lambs.—Feeling better and trade moderately active at improved prices. Common to choice sheep sold at 4a5 4c per lb, with a few export wethers at \$5.60 per 100 lbs. Lambs ranged from 55ga61gc per lb. GEORGETOWN CATTLE MARKET, July 18 .- Offerings this week amounted to 300 cattle, 1500 sheep and lambs and 20 milch cows. Cattle sold at 6a7 4c for prime to choice; 3a5c for common at 6a74c for prime to choice; 3a9c for common to good; sheep 3a44c; lambs 4a634c; milch cows \$20a\$45. Owing to the decline in prices in Northern markets and our supply of offerings, the market opened dull and lower and continued so throughout on both cattle and sheep, with some 20 head of cattle left over unsold. No. 1 milch

ows are in rather better demand, while ordinary are dull at the lowest quotations. During the week ending Saturday, July 15, there were 10,148.09 tons of coal shipped from the Cumberland coal regions. The shipments to date amount to 547,424.19 tons, of which 447.

OS5.10 tons were by the Baltimore and Ohio Railroad, 11,516.12 by the Chesapeake and Ohio Canal Company, and 74,842 tons by the Pennsylvaeia Railroad State Line. The break in the Chicago grain market on Mon-

day was followed by another sharp decline yes-terday, which is attributed to the large quantity of winter wheat now on the way to market.
